Name: Schuermans, Bruno

Occurences:
- Einrichtungen > Forschungszentren > Institute for Advanced Study (IAS) > Fellows > Alumni
Entries:

[6/16]: Hummel, Tobias; Berger, Frederik; Stadlmair, Nicolai; Schuermans, Bruno; Sattelmayer, Thomas, Extraction of Linear Growth and Damping Rates of High-Frequency Thermoacoustic Oscillations From Time Domain Data, Volume 4A: Combustion, Fuels and Emissions, ASME, 2017

[7/16]: Hummel, Tobias; Hammer, Klaus; Romero, Pedro; Schuermans, Bruno; Sattelmayer, Thomas, Low-Order Modeling of Nonlinear High-Frequency Transversal Thermoacoustic Oscillations in Gas Turbine Combustors, Volume 4B: Combustion, Fuels and Emissions, ASME, 2016

[8/16]: Hummel, Tobias; Hammer, Klaus; Romero, Pedro; Schuermans, Bruno; Sattelmayer, Thomas, Low-Order Modeling of Nonlinear High-Frequency Transversal Thermoacoustic Oscillations in Gas Turbine Combustors, Journal of Engineering for Gas Turbines and Power, 2017, 139, 7, 071503

[10/16]: Hummel, Tobias; Temmler, Constanze; Schuermans, Bruno; Sattelmayer, Thomas, Reduced Order Modeling of Aeroacoustic Systems for Stability Analyses of Thermoacoustically Non-Compact Gas Turbine Combustors, Volume 4B: Combustion, Fuels and Emissions, ASME, 2015

[14/16]: Schulze, Moritz; Hummel, Tobias; Klarmann, Noah; Berger, Frederik; Schuermans, Bruno; Sattelmayer, Thomas, Linearized Euler Equations for the Prediction of Linear High-Frequency Stability in Gas Turbine Combustors, Volume 4B: Combustion, Fuels and Emissions, ASME, 2016

[15/16]: Schulze, Moritz; Hummel, Tobias; Klarmann, Noah; Berger, Frederik; Schuermans, Bruno; Sattelmayer, Thomas, Linearized Euler Equations for the Prediction of Linear High-Frequency Stability in Gas Turbine Combustors, Journal of Engineering for Gas Turbines and Power, 2016, 139, 3, 031510
