**AUXANE BOCH** received the bachelor's degree in psychology from the Université Savoie Mont Blanc, France, and the master's degree in cyberpsychology from the Dun Laoghaire's Institute of Art, Design and Technology, Ireland. She is currently pursuing the Ph.D. degree with the Technical University of Munich (TUM), Chair of Business Ethics focusing on the issues of social robotics and ethics from a human-centered perspective.

She is currently a Researcher at the TUM Institute for Ethics in Artificial Intelligence, where she investigates various topics related to AI ethics, education, culture, and governance. She is also a Beyond Fellow of the Artificial Intelligence for Earth Observation Team, TUM International Future Laboratory, where she works on the ethical opportunities of social media data for society and the perception of AI ethics by researchers. Combining all sides of her work, she gives lectures for the TUM School of Social Sciences and Technology, the TUM Department of Aerospace and Geodesy, and the Dun Laoghaire's Institute for Art, Design and Technology. Finally, she works profusely with the Women in AI Group and is a Women in Games Ambassador.
