Table 1: Percentage Distribution of Full-Time Employment by Year

The table above illustrates the percentage distribution of full-time employment by year from 1972 to 1977. It shows a slight decrease in the percentage of full-time employment from 1972 to 1977, indicating a potential trend in the labor market during this period.
The page contains a table and some text in German. Here is the table in markdown format:
