Titel des Beitrags: [Bladder cancer in focus: update 2012 of the German Bladder Cancer Association].

Abstract: The German Bladder Cancer Association (DFBK) invited its members to the 3rd annual meeting 2012 in Hannover 4 years after the official founding. The meeting was directed to discuss the progress of ongoing and newly initiated projects and collaborations. In this article we will introduce current research activities and collaborations of the DFBK and would like to invite interested researchers to join this national interdisciplinary research association. The aim of the DFBK is to initiate interdisciplinary collaboration and to support scientific discussions among its members.
